

WTP-120 Outer Wrap

DESCRIPTION

WRAPTITE WTP-120 is a clear, heavy duty, plastic film outer wrap.

USES

WRAPTITE WTP-120 may be used as a protective outer wrap to cover WRAPTITE WTP1 tapes, primers and mastic products prior to backfill.

ADVANTAGES

Economical outer wrap for WTP1 products in non-aggressive backfill areas. Conforms to irregular surfaces. Applicator safe, WTP-120 Outer wrap is non-hazardous and easy to apply.

APPLICATION

All surfaces should be coated with proper WTP1 Petrolatum wax product prior to application. Heavy-duty WTP-120 outer wrap should be applied loosely in a spiral application over WTP1 products so that all surface area is covered prior to backfill. If additional protection is needed, consider using WRAPTITE WTP-10 outer wrap or an approved rock shield. Contact WRAPTITE for recommendations.

GENERAL PROPERTIES

Total Thickness.....	1.2 mils
Composition.....	polyethylene
Roll Size.....	5" x 600'
Normal Application Range.....	-30° F to 160° F
Normal Service Range.....	-30° F to 175° F

CHEMICAL RESISTANCE

Hydrocarbons.....	poor
Salts, bacteria, acids and alkalis.....	excellent
